REMARKS/ARGUMENTS

Claims 2, 6-9, 13-17, 19 and 20 remain in this application.

Claims 1, 3-5, 10-12 and 18 have been canceled.

Claims 2, 6, 7, 13, and 16-20 have been amended.

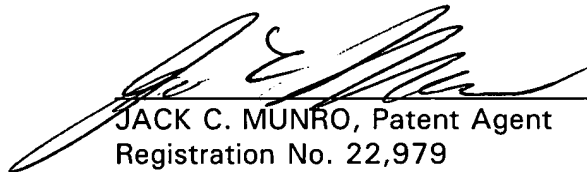

The specification has been completely reread and numerous grammatical changes have been made to the extent that an entire new specification is being submitted. Claims 2, 6-9, 13-17, 19 and 20 were indicated as containing allowable subject matter. These claims have now been rewritten where necessary to put these claims in condition for formal allowance. The applying of the references of Bishop, et al. and Kneer have been noted. Arguing against the application of these references against these claims is not necessary since the rejected claims have now been canceled. The citing of the additional references of record has been noted as showing the state-of-the-art.

It is now believed that the the subject application is in condition for formal allowance.

Amendment to FLUID DISPENSER ASSEMBLY
